## M. D.'s Have "Unies" Has He Found a Cure For Asthma?

Simple Prescription Gives Instant Relief, Makes Breathing Easy.

In New England, where Bronchial Asthma, Bronchitis and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidase, a physician's prescription.

Oxidase is a harmless but powerful combination of curative essential oils concentrated and compressed into a small tablet. One of these tablets slowly dissolved before going to bed seems to have the effect of releasing the muscular constriction of the bronchial tubes opening up the air passages and regulating spasmodic lung action. This enables the patient to breathe easily and naturally while lying down and to get a comfortable night's sleep.

So much interest has been shown that local druggists, including Wurster Bros. and Fisher & Stretch have secured a small supply and state that they are authorized to refund the money paid for the first package if in any case this new treatment fails to give relief. Oxidase is pleasant to take, contains no harmful habit-forming drugs and is not expensive. This makes their test an easy matter.—Advertisement.

### Sons of Pioneer Wholesale Grocer of This Section Here On Visit To Old Friends

Happy in the thought that they are back among old friends and familiar scenes, Charles C. Martin of Cincinnati and brother, Harry Martin of Gowanda, N. Y., are here to renew old friendships and acquaintances and to see just how far the Peerless City has progressed since they left it many years ago.

They are the sons of the late W. P. Martin, one of the pioneer wholesale grocers in this section. His firm being known as W. P. Martin & Sons, and was located in the building now occupied by B. Augustin at Front and Court streets. Mr. Martin's firm erected this three story brick building in 1896 and sold it to the late B. Augustin in 1920.

Mr. Martin was known as a very successful and capable business man and had an extensive acquaintance among rivermen to whom he had sold thousands of dollars worth of goods. The family at one time resided in the old Lloyd property on Gallia street west of Waller and later in the home now occupied by Mr. and Mrs. Virgil

Fowler of Second street, which for years housed the Hamilton Free Reading Rooms. Mr. Martin also lived in the Samuel Horchow home at Fourth and Union streets, he having built this home. He was one of the pioneer residents of this section having been born July 15, 1816. He passed away in 1890.

Harry Martin conducts a first class hotel in Gowanda, N. Y., where he has been located for years and Charles C. Martin is manager of the Thomson & Company of Cincinnati, tent and awning makers. They have one sister, Mrs. Ella Martin Parsons and three brothers, James of New Orleans, Home, who is located on the old Martin farm at Proctorville and George of Los Angeles, all of whom will be remembered by the older residents of Portsmouth.

"We are meeting many old friends here and are having a delightful visit," Charles C. Martin said today. "While your city has progressed wonderfully, yet I find many places that I happily recall especially in

the West End, where I spent most of my early life. You have a real town here and have reasons to feel proud of it."

Mr. Martin and brother are in splendid health and their friends will be pleased to learn that they have amassed their share of this world's goods by their aggressiveness and frugality and now are in position to enjoy the fruits of their many years of conscientious labor.

### Lavinder Is Candidate For Co. Commissioner

The latest entry in the race for the Republican nomination for county commissioner is Floyd H. Lavinder, progressive young Niles township farmer, who tossed his derby in the ring in a statement issued today announcing his candidacy. He is the second candidate living west of the Scioto river to enter the race and his friends feel confident that he will win the endorsement of his party for one of the two nominations open on the board. The other candidate from the West who has announced his intention to make the race is Charles Worley, widely known Turkey Creek farmer and former commissioner.

## Defends Mellon Tax Cut Program; Says It Helps Majority

WASHINGTON, January 24.—(By The Associated Press.)—Secretary Mellon's program for tax reduction was defended today in the House of Representatives by Representative Mills, of New York, a Republican member of the Ways and Means Committee, which is engaged in framing a revenue bill.

Mr. Mills argued vigorously for the reduction in surtax rates to maximum of 25 per cent as recommended by Mr. Mellon, and attacked the Democratic plan to cut surtaxes only to a minimum of 44 per cent, while further reducing normal income rates as "limiting the benefits of tax reduction to 3,000,000 individuals."

The Mellon plan proposes relief for the small income tax payers, Mr. Mills explained, "but also reduction of surtaxes on higher incomes, not for the benefit of the few individuals who pay them, but because from the standpoint of the United States government, they are unproductive and uncollectable, and from the standpoint of the welfare and prosperity of all our people, harmful."

Present surtaxes with a minimum of 25 per cent, Mr. Mills declared, have resulted "in medium sized and large fortunes being invested in municipal and state securities that were formerly reserved for estates, trusts and people of moderate circumstances, not only depriving the country of the liquid capital for new ventures, but raising the price of conservative investments to a point where the small man is driven to speculative ones, without adequate means available to him of judging their true value."

There is a vast difference," the judge said, "between ordinary crime and juvenile delinquency, and this difference is recognized by the laws of the state. The child who goes wrong is not punished as an adult criminal."

"The law contemplates that the child has life ahead of him, that he is in the formative years, and the proper treatment and proper living conditions should lift him out of any lawless mood into which he may have fallen."

"Every boy and girl has a right to a chance in life, a right to rise in the world in a manner commensurate with the ability the almighty has given him, and the law guarantees and protects this right."

"So it is that we have a bureau of research, where children who have become 'criminals' in the common place usage of the word, may be studied. In many cases it is found that some physical or mental trouble is the cause of a child's 'going bad.' This, many times, can be corrected, and the helping of the child is ever the first consideration of the court."

**Allimony Payments Ordered**  
According to an approved entry filed in the office of the clerk of courts in the case of Isabel Bennie, 1218 Offshore street, against Thomas P. Bennie, Sciotoville electrician, the defendant will be required to pay his former wife the sum of \$15 a week as allimony for the support of herself and their two minor children, awarded to the custody of the mother. Under the court's order annulling the marriage, Bennie will have the privilege of visiting the children at all reasonable times.

**Wife Asks for Divorce**  
Avenue, New Boston, charges neglect and cruelty in her suit for a divorce with custody of minor children, instituted in Common Pleas court Thursday against James Holloway, present whereabouts unknown, whom she married in October 1902.

Plaintiff in her petition filed through Attorney George W. Sheppard says that Holloway has not supported his family for more than three years and claims that all the support she has received during the past seven years is what she received from the Ohio penitentiary during the time he was confined in that prison under sentence for non-support. She further charges that during the time she lived with Holloway he frequently beat and abused her and claims that by reason of conduct towards her she was compelled and did leave him about eight years ago. She says that of nine children born to the union, the three youngest are living with plaintiff.

**Charges Neglect; Seeks Divorce**  
Alleging neglect and declaring that he has separated four times because of his failure to support her and their children, Edith Beman, 1601 High street, is seeking a divorce with custody of their two children in an action instituted in Common Pleas court Thursday against Harry C. Beman, present address unknown, whom she married in April, 1912.

Plaintiff in her petition filed through Attorney George W. Sheppard, says that on three occasions she look Beman back in the hope that he would do better, but claims that he failed to keep his promises and declared that when he left her for good, he was going beyond the jurisdiction of the court to escape providing for his children, she says.

**Left Property To Children**  
Under the wills of the late Henry Potter and his wife, Phoebe L. Potter, both deceased, admitted to probate, Thursday, they left their property to their four daughters.

The wills were both executed on the same date, October 15, 1920, and the provisions in both were identical, except that Mr. Potter left his estate to his wife in event she should survive him, which she did not as her death occurred on May 10, 1923, and he died only a few days ago.

Under both wills the parents bequeathed their real estate to their two daughters, Emma L. Potter and Mrs. L. Dressler in equal shares and left their personal property to be divided equally among their four daughters, Lora E. Lawson, Laura Edna Hunsinger, Emma Potter and Mary L. Dressler.

**Discusses Delinquency**  
Judge Nathan B. Gilliland, commenting on the New Year's "crop" of juvenile delinquency cases, yesterday afternoon, said the month

was to be considered "fairly light" in view of the number of cases before his court, and added that he believed constructive treatment of delinquency would show fruit in its decline.

**Court House**  
Seeks Marriage Annulled  
On the grounds of cruelty and neglect, Esale Hoff, suing through Nancy Lambdin, next friend, is seeking to be divorced and restored to her maiden name. In an action filed in court against Virgil Hoff, whom she married in September 1922.

Plaintiff in her petition filed through Attorneys Miller and Seal says no children were born of the marriage and then accuses Hoff of threatening her and neglecting to support her, furthermore, she declares that he has been associating with other women whom he accompanies to picture shows and other public places. Plaintiff also claims that at the time of the marriage she was but 14 years old, and was unable to enter into the contract which she now desires annulled.

**Attending Judge's Meeting**  
Judge James S. Thomas left this morning for Columbus to attend the second annual meeting of the Association of Common Pleas Judges of Ohio, which convened at the Southern Hotel this afternoon. A banquet will feature the night session, over which Judge Maurice Beroun of Cleveland will preside.

Among the speakers (his afternoon were: James W. Tarbell, president of the association; Phil S. Bradford, president of the Franklin County Bar Association; Appellate Judge Reynolds R. Kinkade, Toledo, and John J. Sullivan of the Cuyahoga appellate court.

Addresses will be made at the dinner by Judge E. B. Kincaid, Columbus, Judge D. H. Graven, Ashland and Judge N. C. McBride, Hillsboro.

The winter meeting of the Ohio State Bar Association as scheduled to begin in the Capital City Friday morning and Judge Thomas will stay over for the session of that organization. He will be joined by a number of local attorneys, including Judge A. Z. Blair, Judge A. H. Hombert, Attorney E. G. Miller, George W. Sheppard, R. F. Kimbrie and others, to attend the state bar meeting.

## CAPPER URGES FREIGHT RATE CUT FOR FARMERS

WASHINGTON, January 24.—(By The Associated Press.)—Substantial reduction in transportation costs for the relief of the farmer was urged in the senate today by Senator Capper, Republican, Kansas, chairman of the agricultural bloc in advocating repeal of part of the transportation act to allow lower freight rates. "Assuming that we are in no sense hostile to the railroads," Mr. Capper insisted that excessive freight rates are injuring the farmer and stockman and "have been injuring him for more than three years."

"The roads now undeniably prosper," he said, "should help life of the farmer and stockman in his fight against the common cause of the general good. Farm products are compelled to bear more than their share of the transportation charge."

"How the farming industry is to continue to sell its products at near pre-war prices and pay freight rates from 50 to 80 per cent higher than pre-war rates is not clear to any one conversant with the facts. While the railroads are doing a most profitable business, thousands of good farmers are leaving improved farms because they can not make a living on them."

"We are demanding the repeal of this Section 15-A," he asserted, "because rates are determined with regard to the ability of badly organized or located or capitalized or managed roads to earn a profit on an investment, the proper calculation of which is in dispute, thereby establishing rates that earn excessive profits on well organized systems. The recapture provision of Section 15-A is a farce. It encourages extravagance and padded expense accounts by the prosperous roads."

## Aniversary Is Celebrated

What will be remembered as one of the biggest and most successful meetings ever held by the Council, degrees of Pochonias, was Wednesday night when the first anniversary of the order was fittingly celebrated with state officers and visitors from Councils in nearby towns present, initiation and a banquet. Great Pochonias Mattie Setterfield of Columbus and Great Pochonias of Columbus Ella M. Browning of Columbus were the state officers in attendance.

The early part of the evening was given over to the conferring of degree work on four candidates. The degree team had practiced faithfully and exemplified the work in a manner that brought much praise from the state officers and visitors. One application was received and one was favorably balloted upon. The four initiated brings the total membership up to 101, with five more ready for adoption. A year ago when the Council was instituted there were 40 charter members.

At the banquet that followed the business meeting splendid talks were made by Mrs. Setterfield, Mrs. Browning and representatives from the visiting delegations and the clasp of enclosures. Mrs. Browning in her remarks spoke of having present when the Council was started a year ago and how it had grown beyond all expectation. Mrs. Setterfield complimented the Council on its steady progress and predicted big things for it in another year with the same splendid working spirit prevailing among the members.

His Royal Council, Portsmouth, had four members present, Red Wing Council, Waverly, thirteen, and Oak Hill Council three. Great Prophetess Minnie Dawson of Cleveland sent her regrets at not being able to attend the anniversary celebration. The committee in charge of the banquet session included Mrs. Katherine Kittrell, Mrs. Edna Wales, Mrs. Myrtle Reed, Mrs. Ollie Hardegrove, Mrs. Mena Warshaw, Mrs. Dora Laufer and Mrs. Hazel Grady.

## The Doctor's Advice

By Dr. Lewis Baker

Tells Effectual Methods

of Beneficially Influencing the Common, Minor Ailments of Mankind and Quotes Remarkable Open Letters of Testimony Relating to Pure, Trust-worthy Products Which Scientists, Doctors and Pharmacists Supply to the Public.

The extremely good benefits procured by those to whom I have recommended Balm of Gilead for the minor, but nevertheless distressing, annoying and painful ailments of the kidneys, bladder, prostate, and other equally famous ailments, that we owe this remedy. First used by ancient Egyptian physicians and later brought to America, where more perfect methods of preparation followed, it is now benefiting kidney and bladder diseases almost in the twinkling of an eye. This discovery, termed Filament, the main secret of the cure, is the active ingredient of Balm of Gilead, a non-secret remedy which I have recommended to thousands of patients in the fifteen years, with most gratifying results.

Mrs. L. K. writes: "I suffer greatly from neuritic aches, severe headaches and periodic pelvic pain. Can I get relief?"

Answer: I have found Balm of Gilead to be very effective in such cases. They contain no opiates to harm you.

Mrs. H. C. writes: "I suffer from a very bad case of hemorrhoids, which are very painful. Can you advise me of a good remedy?"

Answer: Any well-known pharmacist can supply you with the Balm of Gilead, which is the most effective remedy for hemorrhoids, packed in sealed tubes with full directions for use. These tablets have proven wonderfully effective in reducing hemorrhoids.

Mrs. M. A. writes: "My scalp itches terribly, is very red and a great amount of dandruff is present. What is good for this?"

Answer: First shampoo the hair and then apply plain yellow Minoxal about twice a week in per directions. This will cure the itching, overcome the dandruff and makes the hair beautifully glossy and vigorous. Obtain in 4-cent boxes of druggists.

Mrs. K. L. writes: "It is true that nasal catarrh will spread to other parts of the body? Can you offer a remedy for catarrh of the nose and throat?"

Answer: Neglecting catarrhal conditions may cause various parts of the body to become diseased. Gargle with clear water and use a solution of warm water and Vaseline ointment as per directions once or twice daily. Also apply the Balm of Gilead to the nostrils twice daily in nostrils. If catarrh is associated with constipation, take Sulphur tablets.

Mrs. A. G. writes: "I suffer much with indigestion, heavy feeling in stomach, bloating, belching, flatulence, and such symptoms as you mention. I advise the use of Balm of Gilead, which is the most effective remedy for indigestion. They should prove very effective."

O. M. writes: "I have been taking salts to purify my blood and cure my skin of itching and pimples, but with much benefit. Please prescribe for this."

Thousands have written him expressing their gratitude and confidence similar to the following:

### LETTERS TO DR. BAKER

Mr. Robert Schmitt, foreman in a large concern, 421 Eighth Ave., New York City, writes: "I certainly am thankful to you for the relief I got from Catarrh of the bladder. I have been troubled for two years with my bladder. I live on a busy avenue and the noise of automobiles and the noise of the city would startle me and at night I would have to get up and urinate. I started taking Balm of Gilead and after a few days I was able to sleep and feel more cheerful than I did before."

Mrs. M. Cohn, 5345 Second Ave., Pittsburgh, Pa., writes: "I have been suffering with headache, dizzy spells and weak legs. I have been taking Balm of Gilead for some time and am feeling much better. Also have taken Sulphur tablets for pimples and there is none but I am feeling better and feel much glad to do so. With best wishes, etc."

Mrs. John Key, 29 Grape St., Buffalo, N. Y., writes: "My husband was troubled with a very bad case of hemorrhoids. I have been taking Balm of Gilead for some time and am feeling much better. Also have taken Sulphur tablets for pimples and there is none but I am feeling better and feel much glad to do so. With best wishes, etc."

C. B. M. writes: "What will relieve painful aching stiffness of the joints?"

Answer: Rub the affected joints with Balm of Gilead. It will relieve the pain and stiffness. If kidneys are not active, take Balm of Gilead, also.

Mrs. B. C. B. writes: "Can you advise something to strengthen me and cause me to gain in weight? I am very thin and catch cold easily and often, and tire easily, but am not tubercular."

Answer: I have found Balm of Gilead to be very effective in such cases. They contain no opiates to harm you.

## AGED WIFE SLAYER, PRONOUNCED INSANE BY JURY, CREATES SCENE IN COURTROOM

LIMA, Jan. 24.—(By the A. P.)—William H. Mohler, 78, confessed wife-killer and arsonist, was found insane today by a jury in common pleas court. He will be sent to the state hospital for the insane here.

Three suits were filed today against Mohler's estate for \$14,246 by an insurance company and three neighbors, Samuel, Homer and Chris Gratz, claiming damages for the burning of two barns last summer. Mohler confessed he set fire to them.

While attorneys were examining Mohler today, he arose and shouted:

## HELP ENFORCE LAW AND OBEY IT OURSELVES ARE WHAT WHITE CALLS CITIZENS' DUTIES

COLUMBUS, O., Jan. 24.—(By the A. P.)—What individuals should have courage respect for law and should have enforcement was outlined by James A. White, former superintendent of the Anti-Slavery League of Ohio, before the annual convention of the Ohio Pastors' Association here today. He urges all citizens:

Give their co-operation and assistance to all enforcement officers.

Publicly and privately register their sentiment in favor of vigorous enforcement of the law.

Serve on juries when called.

Express their opinions to editors of their papers.

Acquaint themselves with the facts to refute misrepresentations.

Encourage public officials.

Affiliate with societies and organizations that have for their purpose inculcation of respect for law.

Keep their daily conduct in strict obedience to law, thus creating an example to others on the proper attitude toward law.

"The issue before the American people is not prohibition, but whether the greatest democracy in the history of the world can enforce its own organic laws," Mr. White declared. He charged that Bishop Joseph Schrembs, of Cleveland, and Nicholas Murray Butler, of Columbia University, "always opponents of prohibition," are no longer talking against prohibition, but against the constitution of the country.

"The church in action," he said, "was responsible for the victories that have been obtained against the lawless liquor traffic."

## FARM CROPS IN OHIO LAST YEAR REGISTER \$40,000,000 INCREASE

COLUMBUS, O., Jan. 24.—(By the A. P.)—Crops produced on Ohio farms last year are valued at \$300,000,000 in an estimate made public today by C. J. West of the state federal crop reporting service. The figures are approximately \$40,000,000 greater than the valuation placed upon crops produced during 1923.

Half of the increase, or \$20,000,000, is credited to the corn crop as result of a 10,000,000 bushel increase in the yield and eight cent increase in price. If this crop were offered for sale now, however, it is doubtful if it would bring much more than last year's crop on account of its poor quality, West said.

The wheat crop was 7,000,000 bushels greater than for 1923, which a little more than makes up for the decline in price, giving the 1923 crop a value of \$42,500,000. The value of the 1923 crop was \$41,250,000.

The jury, which returned the verdict deliberated only a few minutes. During the trial Smith testified that he had "taken a flier" in the vaudeville business, and that at the time he met Miss Traverser he was making a venture into the movie business.

Miss Traverser alleged in her suit that Smith induced her to sign a contract with Fox Films in 1920 by his promise to manage her at \$3,500 a week, with expense allowances of \$1,000 a month. ## Exchangeites Observe Suggestion Night; Discuss Plans to Make Bigger, Better City

What can the Exchange Club do that will make Portsmouth a bigger, better city?

Every member of the club attending last night's session held at the Mary Louise Club handed in a suggestion in answer to the above question, and the suggestion will be turned over to a committee, to be named within the next two or three days, which will select an objective for the club to accomplish this year.

Geraci, accordionist now playing at the Eastland Theater, and B. B. Lovine, Huntington, W. Va., advertising man, were the headliners of last night's program.

The musician provided a program which "went over big" to use the language of the theater, and the strains which came from the "consonant organ" as the accordion has been called, furnished no end of entertainment and enjoyment.

Mr. Lovine spoke on advertising and publicity, and the large place it occupies in the modern world, and his address was of such character that an invitation to "come again and often" was extended to him.

D. D. Mitchell was in the chair, and named Mrs. C. L. Ferguson, Harry Rapp and Frank Coburn on a committee to handle publicity in connection with the prevention of cancer drive fostered by the national Exchange Club.

WHEN YOU CATCH COLD RUB ON MUSTEROLE

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into "flu" or pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmothers' mustard plaster without the blister.

Musterole is a clean, white ointment made of oil of mustard and other home-remedy ingredients. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, numbness, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion, pain and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bitten colds of all sorts.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c jars and tubes; hospital size, \$3.00.

Better than a mustard plaster.

TOLEDO PEOPLE WANT STATE BOARD PROBED

TOLEDO, Jan. 24.—Delegates to the Parent-Teachers' federation here yesterday demanded that federation go to Governor Donahay and seek a probe of activities of the state board of education, and particularly of the actions of Dan Williams, member of the board, as a result of what was termed Williams' "insulting action" here Tuesday at a conference to hear protests against the parole of David A. Barnett from Mansfield.

The federation, which represents the parents and teachers of virtually all children in the Toledo public schools, took no action on the demands, but intimated that at a later date the protest would be given attention.

Barnett, serving a sentence of from one to twenty years, is to be paroled February 1, unless the clemency board rescinds its action, taken two weeks ago, as a result of the avalanche of protests against Williams at the hearing here.

Talks everywhere in Ohio have been benefited as was Mr. Sutton, Minerva, Ohio.—"I was suffering most severely from a pain in my back. I got a bottle of Dr. Pierce's Anuric Tablets and took them. It was rheumatism, and in about three or four weeks I had relief. I know, too, from the experience of others with whom I am acquainted, users of Dr. Pierce's Anuric, that they have been benefited." —Harry E. Sutton.

The federation, which represents the parents and teachers of virtually all children in the Toledo public schools, took no action on the demands, but intimated that at a later date the protest would be given attention.

Barnett, serving a sentence of from one to twenty years, is to be paroled February 1, unless the clemency board rescinds its action, taken two weeks ago, as a result of the avalanche of protests against Williams at the hearing here.

TOLEDO PEOPLE WANT STATE BOARD PROBED

TOLEDO, Jan. 24.—Delegates to the Parent-Teachers' federation here yesterday demanded that federation go to Governor Donahay and seek a probe of activities of the state board of education, and particularly of the actions of Dan Williams, member of the board, as a result of what was termed Williams' "insulting action" here Tuesday at a conference to hear protests against the parole of David A. ## Coolidge

(Continued From Page One)  
 In the form of a statement of attorney since the President read his first message to Congress. Mr. Coolidge doesn't expect to surrender anything without a battle. Some of his strongest supporters have become panicky over the coalition between the insurgent Republicans and Democrats and are beginning to urge a compromise particularly in the tariff rates, arguing that a twenty-five percent maximum on surtaxes never will be adopted. The Democrats have placed the maximum at 44 percent and the compromise talk is of 35 percent.

Mr. Coolidge feels that the tariff rates are not matters for political judgment or compromise. He believes that a tariff rate must be productive of revenue. He is thoroughly familiar with what revenues the government has been losing under the high rates and he is determined that the tariff rate shall be lowered so as to produce revenue. He takes the view that otherwise the people of small incomes will have to make up the deficiency just as they are doing today and that a practical way must be found to prevent the enormous increase in tax exempt securities.

**Stands Behind Secretary Mellon**  
 Mr. Coolidge stands firmly behind Secretary Mellon, who has furnished figures based on previous years showing that the government is getting less and less revenue from the higher surtax rates. The question of how low the surtaxes should be placed is a practical question of mathematics. Below a certain point surtaxes become unproductive, above a certain figure they are applied entirely by means of tax exempt securities. Thirty-five per cent is in many respects as useless as far as producing revenues as fifty-eight per cent. Twenty-five per cent is the mark at which capital can be tempted to invest in taxable securities. Mr. Coolidge expects to make this clear to the country when the occasion requires. He is not saying much at present, but the warnings he has sent out are calculated to stiffen the backs of his supporters in Congress. Inquiry at the White House as to whether the President would veto a bill which had in it a provision for surtax rates above 25 per cent brought the response that Mr. Coolidge would not undertake to forecast his action. On the other hand, it was stated officially, that the rest of whether the bill would be approved in the last analysis would depend on whether the legislation actually met the demand of the people for a general reduction of taxation that would benefit all classes and at the same time stimulate the industrial and business activity of the whole country.

 argument of general pacification. For this reason, according to the newspaper, Mr. MacDonald means to devote every effort toward the early inclusion of Germany and Russia in the league.  
 The Daily Telegraph also asserts that the premier has instructed Lord Balfour, the lord president of the council, to represent Great Britain on the League of Nations council, replacing Viscount Balfour of Burghley, who is retiring.  
 Contrary to the general belief and to what is supposed to have been his own intention, originally, Mr. MacDonald, the Daily Mail states, has decided to appoint members of his own party, the Free British, to the council, representing France, Poland, and the British Empire, representing France, Poland, and the British Empire, representing France, Poland, and the British Empire.

# What Kind Of Blood Have You?

Thin, Pale and Watery—Keeping You Weak, Nervous and Rundown, or Rich, Red Healthy Blood With Plenty of Iron in it To Give You Strength, Energy, Power and Endurance?

## IRON IS RED BLOOD FOOD

Says Physician

How NUXATED IRON Puts Roses into the Cheeks of Women and Helps Give Renewed Strength to Men.

Plenty of iron makes rich, red blood corpuscles like these. Lack of iron makes weak, pale blood corpuscles like these.

If you tire easily, if you look pale, haggard and worn, if you feel generally weak, nervous and run-down it would probably astonish you to look at a drop of your own blood under a powerful microscope and compare it with a drop of pure, healthy blood—rich in iron. Actual blood tests show that a tremendously large number of people who are weak and ill lack iron in their blood and that they are ill for no other reason than lack of iron.

Fort of iron you may practically be an old woman at from 30 to 35, weak, downhearted and "all faded out." You may be in such a highly nervous, irritable state that you "pull to pieces" on the slightest provocation, while at 50 or 60 with good health and plenty of iron in your blood, you may still be young in feeling and so attractive and full of life as to defy detection of your real age.

"Iron is red blood food," says Dr. E. Sauer, "and organic iron—Nuxated Iron—helps to build up the red blood corpuscles and give increased power and endurance."

Nuxated Iron represents organic iron in such a highly condensed form that one dose of it

is estimated to be approximately equivalent to such one quart of green vegetables or half a dozen apples.

Each 400-grain bottle annually are using NUXATED IRON. It will not irritate the teeth nor disturb the stomach. It often increases the bodily and mental vigor, strength and endurance of weak, nervous, "run-down" folk in two weeks time. Your money will be refunded by the manufacturer if you do not obtain satisfactory results. Beware of substitutes. Nuxated Iron comes in tablets only, never in liquid form. Always look for the word "Nuxated" on every package and the letters N. I. on every tablet. Sold by all druggists.

ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

## PEACE CONFERENCE IN BRITISH STRIKE MEETS WITH DELAY

LONDON, Jan. 24.—(By the A. P.)—The expected meeting between representatives of the executive committee of the Associated Society of Locomotive Engineers and Firemen and the railway managers at which it was hoped discussions would be renewed with a view to ending the railway strike, did not materialize today. The railway managers met this afternoon to consider the offer of the Associated Society for a parley, but their decision with regard to a discussion was deferred. J. Bromley, secretary of the society, told the newspapers that he had not heard from the managers.

It is considered probable that the railway managers will meet again tomorrow to discuss the situation. The mediating section of the trades union congress met today and went over the strike situation but adjourned without having reached any definite decision to try to bring the controversy to an end, although the new labor government is reported to be pressing for an early solution of the trouble.

## Sharp Tariff Reduction As Necessary As Tax Cut, Says Senator Underwood

AKRON, O., Jan. 24.—(By the A. P.)—Reduction of high tariff rates is as important to the American people in general as a reduction in taxes, Senator Oscar W. Underwood, candidate for the Democratic nomination for president, declared before the University Club here last night.

"The high taxes collected at the customs house bear even more heavily on the great mass of people than other taxes and the reduction of these levies which have their effect upon the prices of commodities used by every citizen, compares in importance with the necessity of lessening the burden of the income tax," the senator declared.

He spoke strongly, however, for a general reduction of federal taxes. Emphasizing that he was not in favor of free trade, Mr. Underwood declared, however, for a sharp tariff reduction.

"The tariff bill which bore my name represented considerably lower rates than now are in effect," he said, "but under it there was prosperity in business of all sorts. The present rates should be sharply reduced."

Tonight's address was the second made during the day by Mr. Underwood. At noon he told members of the chamber of commerce and a half dozen luncheon clubs, that he favored a single term of six or seven years for all presidents and attacked "bureaucracy, officialism and functionalism in the United States government."

Mr. Underwood also touched briefly upon international relations, declaring that "our destiny henceforth is unalterably interwoven with the destinies of our sister nations overseas."

The senator, after three speeches in Ohio, was to return to Washington late tonight.

Just rub it on the tormented, lame joints and in a few seconds it will penetrate to the bone and blessed comfort comes quickly.

It absorbs instantly and is so clean and stainless that you can rub it on often and get thrice the results much more quickly, when the joint is inflamed and the agony intense.

Being such a powerful counter-irritant, it cannot help bringing speedy and helpful results in congestion, sore throat, chest pain, lumbago and neuralgia much quicker than almost any remedy you can buy.

But you must remember that it is for joint afflictions that it is mostly dispensed and its helpfulness will astonish you after all ordinary liniments and other treatments have failed.—Advertisement.

## U. S. Policy To Aid Obregon Peace Move, Says Hughes

NEW YORK, Jan. 24.—(By the A. P.)—The policy of the Coolidge administration in dealing with the Mexican revolutionary movement was described by Secretary Hughes in an address here last night as "the greatest contribution within our power and in accord with all established tradition and manifest interest to the cause of world peace."

"This hemisphere should be the exemplar of peace," Mr. Hughes said, "and we look with confidence to the creation of a unity of sentiment of the American republics against resort to the brutal arbitrament of force in political controversies. To this end the United States gladly gives its co-operation."

Speaks On Liquor Treaty  
Speaking under the title "Recent

Questions and Negotiations," before a meeting of the Council on foreign relations, Mr. Hughes also outlined the purposes of the liquor treaty with Great Britain, signed today in Washington, and explained why the administration considered it necessary to give up extra territorial rights in negotiating the new treaty with Turkey.

The secretary's discussion of the negotiations with Mexico was prefaced by a recital of the steps that led up to the signing of the two claims conventions by which the Obregon government was accorded diplomatic recognition.

"After this happy result had been achieved," he continued, "and we were looking forward to a period of quiet and of opportunities of advantage to both peoples, suddenly there was an attempt to overthrow the established government of Mexico by violence. It is plain that the purpose of those engaged in this enterprise of arms is simply to determine by forcible measures the succession to President Obregon.

Purely Political  
"It is not a revolutionary instinct with the aspirations of an oppressed people; it is an matter of personal politics. It is an effort to seize the presidency; it means a subversion of all constitutional and orderly procedure. The contestants, seeking to overthrow the established government, have taken possession of certain portions of the Mexican territory and either are claiming tribute from peaceful and legitimate American commerce or are attempting to obstruct and destroy it."

Mr. Hughes then touched on the request of the Mexican government to purchase arms and ammunition from the United States. "To refuse," he said, "would have been to turn a cold shoulder to the government recently restored to friendly relations and 'would in fact have given powerful encouragement to those who are attempting to seize the reins of government by force.' By that course, he said, the Washington government would have "incited a grave responsibility for consequent disturbances" while granting the request for arms involved "no question of intervention, no invasion of the sovereignty of Mexico."

Constitutional, He Believes  
Referring to the question of the constitutionality of the new liquor treaty with Great Britain, the secretary said the administration had no intention to violate constitutional provisions.

"The purpose is to facilitate their enforcement," he said. "I know there are some who have expressed doubt whether such an international agreement can be made under our constitution. This doubt I do not entertain."

## MORAN NEARLY READY FOR BENNY LEONARD

By HENRY L. PARRELL  
United Press Sports Editor

NEW YORK, Jan. 24.—(United Press).—While Benny Leonard is in no danger of losing his lightweight crown, a couple of boys have come out recently who may be able to at least help Leonard keep his business from slipping.

After Leonard polished off Low Tander so completely last summer and after Charley White had been rapped on the chin, the lightweight champion was completely out of established opponents.

He was then facing the prospect of waiting and devoting his time to the study of a profession that appears to him very strongly, or stepping into the heavyweight class.

But recently, however, two youngsters have come out who may develop into challengers of sufficient merit to be built up for two fights this summer.

Pal Moran, the New Orleans lightweight, seems to be the logical contender for the title, if any promoter wants to assume the liability of the purse that Leonard will demand and the expense of staging a big fight.

Moran has been showing class for more than a year and he jumped into prominence when he knocked out Charley White last summer. While you know, hasn't been on the canvas very many times.

Just a few weeks ago, Moran stopped Johnny Shugrue. It is true that Shugrue isn't a top-notch, but the impressive part of Moran's performance against him was the manner in which he won.

The New Orleans boy is a legitimate lightweight and he is a strong, rugged boy. He has a fine fighting disposition, learns quickly and seems possessed of the most ideal temperament for a fighter.

Given a couple of hard fights and

he will be ready for a crack at the lightweight title.

At catch-weights no one believes that Moran would have a chance with Leonard, but there are many smart boxing men who believe that he would give the champion a real fight if Benny had to make his weight.

If the champion can make 135 pounds, as he and his manager, Billy Gilbons, insist he can, it is most peculiar that he would not consent to step on the scales in public before the last fight with Tander.

It will be remembered that the boxing commission would not permit the newspapermen to see Leonard and Tander weigh in for that fight, although the rules clearly provide that representatives of the press must be admitted.

Since it has been said that Leonard and Tander weighed 140 pounds, and that nothing was said about it be-

cause they were both overweight. Tander, just a few days ago, passed out of the picture when he was given a terrible beating by Nate Goldmann, a young former marine, who is the second promising contender for the title.

Goldman had Tander on the floor twice for the count of nine and he certainly would have stopped him if he had known enough to put over one good punch, when the southpaw was on his feet.

Goldman is the third of the former marine class who has stepped out since the war. Gene Tunney, the American light-heavyweight champion and Al Stone, who is beginning to look like the coming heavyweight, were also in the marine corps and learned to fight when they were in the service.

Goldman, according to reports, however, is too heavy to do much more fighting in the lightweight class.

## NEW COMPANY BUYS 40 ACRE TRACT ON ROSEMOUNT ROAD; WILL PLAT GROUND

Through a deal closed Thursday the Portsmouth Development company purchased the Hal B. Noel tract of land, comprising 40 acres of ground located on the north side of Rosemount Road and just off the Soloto Trail.

The tract is to be subdivided at once and will provide for 288 40-foot lots of various depths. The ground is level with the pike and the new owners say it offers ideal lots for home builders.

The ground adjoins the tract owned by Dr. and Mrs. G. Wash Williams, who are present sojourning in Florida.

The Portsmouth Development company today was incorporated

in Columbus for \$36,000. The incorporators are George Vander-

vert, Edward Cunningham, former county clerk, Dr. G. B. Brown, well

known specialist, Dr. C. L. Ferguson and John Knauss.

## But Bok Refused to Tell Them Anything!

Edward W. Bok (foreground) of Philadelphia, who offered \$100,000 for a practical peace plan, was called before a Senate committee to testify as to the amount of money he is spending in the interest of world peace. He refused to give the committee the information it wanted, contending it was a personal affair purely. Seated left to right: Senators Shipstead of Minnesota; Green of Vermont; Moses of New Hampshire; Reed of Missouri; and Caraway of Arkansas.

## Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allensol, to others who took it with what might be called marvellous success. After years of urging he decided to let outworkers everywhere know about his discovery and through the newspapers he has therefore instructed Fisher & Stretch Pharmacy to dispense Allensol with the understanding that if the first bottle does not show the way to complete recovery he will gladly return your money without comment.—Advertisement.

### Frieda Hempel To Render Famous Jenny Lind Concert Here Tomorrow

Interest in the approaching Jenny Lind concert to be given by Frieda Hempel in the High School auditorium Friday night, has sent many a music lover hunting through encyclopedias, scrap-books and musical histories for stories of the Swedish Nightingale.

Jenny Lind was born in Stockholm, Sweden, of humble parents. She sang from childhood and famous teachers became interested in her. At twelve her voice entirely failed. Four years later it came back and her remarkable career began. Jenny Lind was probably the most talked of woman in all Europe when in 1859, P. T. Barnum, without having seen her or heard her, persuaded her to make a tour of the United States. According to the Great Showman's autobiography, as soon as the contract was signed he began to prepare the public mind for the reception of the great Swedish Nightingale.

Forty thousand people thronged the landing to welcome her when the steamer Atlantic docked, and shouting crowds surrounded her hotel. Triumphant arches were erected across the streets she must traverse; from the wharf to her hotel and thousands of buyers flocked to auctions of tickets for her performance. A hatter named Genin, the "Mad Hatter," he was called, paid \$225 for the first New York ticket. His unheard-of extravagance made him famous.

The famous singer gave more than 100 concerts in this country. The only Ohio city to hear her was Chillicothe, where she sang five times.

In 1920 the famous Jenny Lind centennial concert was given in the New York Hippodrome on October 3, the 100th anniversary of her birth, with Frieda Hempel impersonating the Swedish songbird. Since then Miss Hempel has repeated this concert more than 100 times. Portsmouth will hear her January 25 in the High School auditorium under the auspices of the Ladies' Musical.

## Find Home Brew Charge

Charles Mason was fined \$200 and costs by Judge W. R. Sprague when he appeared in Municipal court Thursday and pleaded guilty under two charges of violation of the dry laws by possession and manufacturing of home brew.

The charges grew out of a raid by Chief Arthur and state liquor agents on Mas's grocery at Fifteenth and Kinney streets last night and the uncovering of a case containing 19 bottles of the home brew beverage.

Two others, James McKinney, 1338 Galia street, and John Collins, of Rosemount Road, who were found at the Mason store by the officers, were ordered to appear in court to meet charges but their cases were passed when called to day.

It was indicated today that the official investigation disclosed that Mason had not sold the home brew but only made it for the consumption of himself and friends.

**DRY CHIEF TRANSFERRED**  
WASHINGTON, January 24.—(By the Associated Press)—Amos Harris, of Indiana, prohibition division chief at Kansas City, has been transferred to Los Angeles to take charge of the prohibition area comprising California, Nevada and Hawaii. He succeeds Emerson E. Hunt, who resigned January 2, because of ill health. William D. Moss, of Ohio, will be the new chief of the division embracing Missouri, Kansas, Oklahoma and Arkansas in place of Mr. Harris. The changes announced today by the prohibition unit are effective February 1.

## Sisler and Bancroft Get Chance as Pilots

James A. Hager, well known druggist, will be the new member of the Board of Health.

"Mayor Calvert has asked me to serve on the board and I have accepted the appointment," Mr. Hager declared today. "My first meeting will be with the Board on Monday, February 4."

Mr. Hager will succeed Dr. Ira Martin, whose term has expired. Other members of the board are J. J. Orlert, Dr. J. D. Jordan, C. W. Blerley and Walter Applegate.

## David Purnell's Son Stricken

NEW YORK, Jan. 24.—George Sisler, new pilot of the St. Louis Browns, and Dave Bancroft, who will essay a similar role for the Boston Braves, are the only new-league players in the 1924 gallery of major-league ballplayers. Washington may add a new face to the picture, but as yet no manager has been appointed to succeed Donie Bush. This is the only vacancy now on the list.

Two others who saw 1923 American League action were Frank Chance, going from Boston to Chicago, where he succeeds Kid Gleason, while Lee Fohl, formerly with St. Louis, supplants Chance with the Red Sox.

Bancroft, former captain of the New York Giants, succeeds Fred Mitchell in charge of the Braves. Besides his managerial responsibilities, he will hold down the shortstop job.

Sisler, providing he recovers from the eye injury which kept him out of the game last season, will add a player-manager to the American League roster that now includes Ty Cobb of Detroit, and Tris Speaker of Cleveland.

## David Purnell's Son Stricken

BENTON HARBOR, MICH., January 24.—The House of David, today continued silent regarding the illness of Coy Purnell, only son of Benjamin Purnell, fugitive "king" of the colony. It was learned from authoritative sources, however, that the condition of Coy Purnell is regarded as critical, and it has been found necessary to call in physicians from outside the colony.

Purnell is said to be suffering from a malady which is complicated by an attack of pneumonia.

Some members of the colony said that they would not be surprised if Benjamin Purnell should reappear suddenly among his followers, bared by impending death in his immediate household.

"The effect on the colony of the possible death of the 'king's' son, was much discussed today. The colony's faith does not recognize death. In cases where members have died their bodies have been turned over to an outside undertaker and carried away unmoored and unwept.

## Oil Magnate Hynicka Not Candidate For National Committeeman

(Continued From Page One)

on the 30th day of November, 1921, I loaned Albert B. Fall \$100,000 on his promissory note to enable him to purchase a ranch in New Mexico. This loan was made to me by Mr. Fall personally. It was my own money and did not belong in whole or in part to any oil company with which I am or have been connected. In connection with this loan there was no discussion between Mr. Fall and myself as to any contract whatever.

No Relation To Oil Deals

"This loan had no relation to any of the subsequent transactions. The transactions themselves in the order in which they occurred, dispose of any contention that they were influenced by making a personal loan to a life-long friend.

"The reason for my making and Mr. Fall accepting the loan was that we had been friends for more than 30 years. He had invested his savings for these years in his home ranch in New Mexico, which I understood, was all that remained to him after the failure of mining investments in Mexico, and nine years of public service in Washington during which he could not properly attend to the management of his ranch.

"His troubles had been increased in 1918, by the death of his daughter and his son, who, up to then, had taken his place in the management of his ranch."

When Mr. Doehy concluded his attorney, Gavin McNab, suggested that President Coolidge be requested to appoint a board of experts to examine all facts regarding the contract and that if this board reported that the contract at the time of their making were not "wise, desirable and advantageous for the government to make, the Pan-American Company would recover to the government all interest in such contracts."

Attorney General Daugherty was summoned to the White House today for a conference with President Coolidge, but there was nothing to indicate whether any change had taken place in the administration policy of merely "observing" the Pan-Am Dome investigation in its present phases. It was declared by Department of Justice officials that the president wanted to talk over the case with Mr. Daugherty, who expects to leave within a day or two for an indefinite visit to Florida.

## U.S. OPPOSED TO SALE OF WARSHIPS TO OREGONISTS

WASHINGTON, January 24.—(By the Associated Press)—Although no legal barrier exists against the sale to Mexico by private citizens of war vessels disposed of by the United States government prior to the Washington conference, the Oregon representatives in this country are expected to drop negotiations for such purchases because of the feeling of administration officials that the transactions would violate the spirit if not the letter of American treaty obligations.

A number of vessels for use by the Mexican government against the revolutionists are in private hands in the United States, but the Oregon representatives are understood to have been informed that these ships are regarded as subject, normally, at least, to the same restrictions as have been imposed upon the resale of naval craft sold by the navy department since the conference—that they must not be permitted to become part of the naval forces of any other country without the sanction of the government.

The Oregon government's request for purchase of surplus war craft direct from the United States was refused in conformity with the same obligations as dictated by the naval limitation treaty.

## GOING TO GERMANY

PARIS, January 24.—The experts inquiring into Germany's financial and economic conditions continued today preparations for their hearings in Berlin, whether they are going Monday. The committee and their staffs of experts, secretaries, stenographers and attendants, number more than 100.

Admitting guilt of the theft of a revolver from Mrs. Elizabeth Wilson, 1122 Twelfth street, when brought into Municipal court Thursday, John "Sugarfoot" McDonald, negro, was fined \$10 and costs by Judge Sprague. McDonald admitted that he "borrowed" the pistol without the owner's consent and pawned it to "Big Pete" Harris, who turned the gun over to the police and it was restored to the owner.

90,000 TIRES A DAY NOW BEING MADE AT AKRON  
AKRON, O., Jan. 24.—Production of tires in this district has increased from 70,000 to 90,000 a day since December 1, and virtually all the large companies are working three shifts with steadily increasing forces.

COLUMBUS, O., January 24.—(By the Associated Press)—Mr. K. Hynicka, of Cincinnati, Republican National Committeeman from Ohio, told members of the State Republican Central Committee and others gathered here today to make campaign plans for this state that he would not be a candidate again for National Committeeman. He said he had had the position eight years and that he was going to retire.

COLUMBUS, O., January 24.—(By the Associated Press)—Indication that the Ohio Republican State Organization is going to work in absolute harmony with the Coolidge forces in Ohio were plentiful at the meeting of the Republican State Central Committee here.

On motion of Walter S. Brown of Toledo, head of the government reorganization bureau a motion was adopted by the committee providing for the appointment of Charles W. Montgomery head of the Central Committee, to work with Hoke Donahue of Marion, Coolidge's representative in Ohio to select seven delegates at large and seven alternates to the Republican National Convention.

Change For Better  
Friends of Mr. and Mrs. Claude Vulgarone of 1526 Robinson avenue will be glad to learn that their son Harold, eleven years old, is slightly improved after a three weeks' illness of diphtheria. He was in a dangerous condition from Sunday until this morning.

## OBITUARY

**Funeral Tomorrow**  
Funeral services for Mrs. Louise Nagel, who died yesterday at her home 2203 Eighth street will be held from the home Friday morning at 9:30 o'clock with Father J. E. McGubik in charge. Burial will be in Greenlawn. Funeral and burial services will be private.

**James Rose**  
J. H. Brant of Lucasville recently received a copy of The Remont, (Ill.) Register, containing the following:

"James Rose was born May 12, 1850, at Lucasville, Ohio, and died December 21, 1923, at his home in Los Angeles, where he resided with his wife and children since 1903, at 533 W. 56th street. His death leaves a devoted, lonely wife, Mrs. Cecelia Lacroix Rose, to whom he was married at the old Lacroix home at Havertill, O., in 1870, and who has been blind the past three years. The following children were born to them: Twin babies who died in infancy, Mrs. Mary Rose, Magness of Santa Ana, Calif.; Forest Rose who died at the age of 21 years; Miss Bertha Rose, who was drowned; Raymond Rose, who occupies the old home at Havertill, O.; and Rudolph Rose of Havertill, O., survive.

Mr. Rose has one living brother, John Rose, of Belmont. Six grandchildren, all children of Raymond Rose.

A few of the oldest residents of the county will remember the Rose family. The Miss Bertha Rose who was drowned lost her life when teaching school at Brush Creek. The children and teacher were enjoying a swim made of grape vine over Brush Creek, and Miss Rose was drowned when the swing broke.

## TEN MEET AT QUEEN CITY PLANNED

CINCINNATI, Jan. 24.—Local business men are considering plans whereby horse racing may return to Cincinnati, according to a story published here today. If the plans materialize, horses which perform on what is known as the "Little Circuit" will meet in daily programs at a proposed ten-day meeting during the coming summer at a summer park resort here. The racing would be similar to that held twice a year at Maple Heights, near Cleveland; Rosin Park, near Columbus and Akron.

## P. H. S. TEAMS PLAY IN IRONTON FRIDAY NIGHT

Tomorrow night when the P. H. S. gives play in the Ironmont gym with the boys' and girls' quintets representing that school the Red and Blue lineups will be different than those used in previous contests. Semester rulings have taken their toll of three regulars. Ellsworth and Howard Flowers from the boys' five and Margaret Armstrong from the girls' team.

Both teams are fortunate in having capable substitutes who will be sent into these holes. Monk will fill the place vacated by Ellsworth while Thompson, no doubt, will be the selection for the other forward position. Sommers, Donahue and Heffer are also working hard and when chance permits they will get into the fray.

Miss Armstrong's place is to be filled by Fox, small but mighty when it comes to euging the sphere. She has played on the Red and Blue five before this season and has about as much experience as the other regulars. Captain Helen Hopkins is sure her team will turn in a victory tomorrow night over the I. H. S. ladies.

A number of automobile loads of high school basketball fans will make the trip to Ironmont and when the crowds take the floor they will find a big crowd of faithful backers on the sidelines.

## SHOCKER SAYS HE HAS SIGNED UP

ST. LOUIS, Mo., Jan. 24.—Urban Shocker, star pitcher of the St. Louis Cardinals, upon his return to St. Louis from Chicago, where his case before Judge Landis and against the Browns was dismissed and his plea to be declared a free agent withdrawn last week, tonight disclosed the fact that while in Chicago he signed a 1924 contract. He said he was signed by President Dan Johnson of the American League, who was assisted in the negotiations by Bob Quinn, former business manager of the Browns' now of the Boston Red Sox.

Terms of the contract were not revealed by Shocker, but he did say that he was satisfied not only with his salary, but also with the terms of settlement between himself and the Browns.

## Scouts Will Enjoy Banquet Friday Night

"What is of more importance than a boy's quest for the program for the second annual banquet to be given by Portsmouth Council Boy Scouts of America, for local members of the organization at the Mary Louise, Friday night. And the boys are getting ready to demonstrate that the satisfaction of the Scoutmaster is one of the most important things to them, by doing justice to the big feed being arranged. Indications are that a record crowd will be on hand when the Scouts gather for the banquet, for first banquet, given last year, was a great success which should be repeated this year.

## STOO BAD ABOUT JAWN D.; IF MONEY HOLDS OUT HE MAY BE GOLF PLAYER

NEW YORK, Jan. 24.—"If my money holds out," John D. Rockefeller Jr., told members of the Men's Bible Class of the Park Avenue Baptist church last night, "I eventually will learn to play a pretty game of golf."

All he has learned of the game so far, Mr. Rockefeller said, is "to hit the ball once in ten times."

and "never pick up a lost ball until it has stopped rolling." Another necessity, he finds, is to wear a snappy suit that gives the proper atmosphere and never to appear in a gymnasium suit.

Neither his father nor professional instructors, he said, had been able to introduce him to all the ropes.

## Hoppe Retains Crown; Beats Schaefer

CHICAGO, Jan. 24.—Willie Hoppe of New York, veteran champion at 182 ballline billiards, took the last block of a poorly played challenge match from Young Jake Schaefer here last night, 500 to 417, and thereby retained his crown, 1,500 to 1,100.

Young Jake, son of "Wizard" of other things, was threatening on the first night when he got 500 to Hoppe's 300, but ended up Tuesday night when Hoppe brought the score to 1,000 to 739 by not playing quite so poorly as did the challenger.

Last night's block was a repetition of the weak balling play of the previous night, it taking the champion twenty-two innings to get the necessary 500 points, or average of 22-0-22, while in one inning Schaefer averaged 21-10-22.

NEW YORK, N. Y., January 24.—Speculators for the advance assumed control of today's stock market at the opening and succeeded in lifting prices to six points before a reaction set in toward the close. Pool operations were heavy. The close was easier. Sales approximated 1,000,000 shares.

NEW YORK, Jan. 24.—Stock prices were churned about at the opening of today's stock market but the main tendency continued upward. South Porto Rico sugar advanced 2½ on speculative expectation of an early resumption of dividends and American and foreign preferred moved up 1. Corn Products established another new record high at 177.

Buoyancy of high priced industrial specialties featured the early dealings. Corn Products moving up 3 points to 177½, and gas to 173½, being received by General Electric. United Fruit, American Can, Gulf States Steel, Pan American, B. Marland, Kelly Springfield, Studebaker, Stewart Warner, Mack Truck, Rubber first preferred, U. S. Nichols preferred, Consolidated Gas, American Sugar Refining were new. Foreign exchanges opened irregular.

Stock prices moved unmistakably upward during the morning, speculative offerings of the chemical and fertilizer shares and a four point drop in General Electric preferred, having no effect on the general list. Auto, automotive, and merchandising issues gave the best demonstrations of group strength. Record high prices were established by Maricopa Oil at 47½, and Brooklyn Manhattan Transit preferred at 44½.

United Fruit gained 4 points, Chandler, Dupont, Nash Motors, and National Clock and Suit sold two or more points above yesterday's first quotations. United States Steel common again crossed 101. Call money opened at 4 per cent.

## Variable Move ments On Curb

NEW YORK, N. Y., January 24.—Variable movements prevailed on the curb market today, some issues that had made substantial gains in recent trading reflecting profit-taking sales, declines due to selling of this character, however, were offset by advances in other issues and the majority of stocks moved to higher levels.

New Mexico Land was prominent, making a further advance of 1 point to 74, a new high record.

Standard Oils moved within comparatively narrow limits, but there was a vigorous advance in Magnolia, which rose five points to 155. Prairie Oil was strong and made a substantial advance. There was a resumption of accumulation of Standard Oil of New Jersey which made a sharp advance. Standard Oil of New York and Indiana was strong. Continental Oil advanced nearly one point. Mutual Oil, which has arranged for absorbing the continental company on the basis of four shares of Mutual for one of Continental made a fractional advance. Pan-American rights to subscribe to securities issued in connection with the California development which sold as high as 82 late last year and yesterday were down to 65 cents today. Coal stocks featured in the industrial group.
